

 contardi

 contardi

COUTURIER OF LIGHT

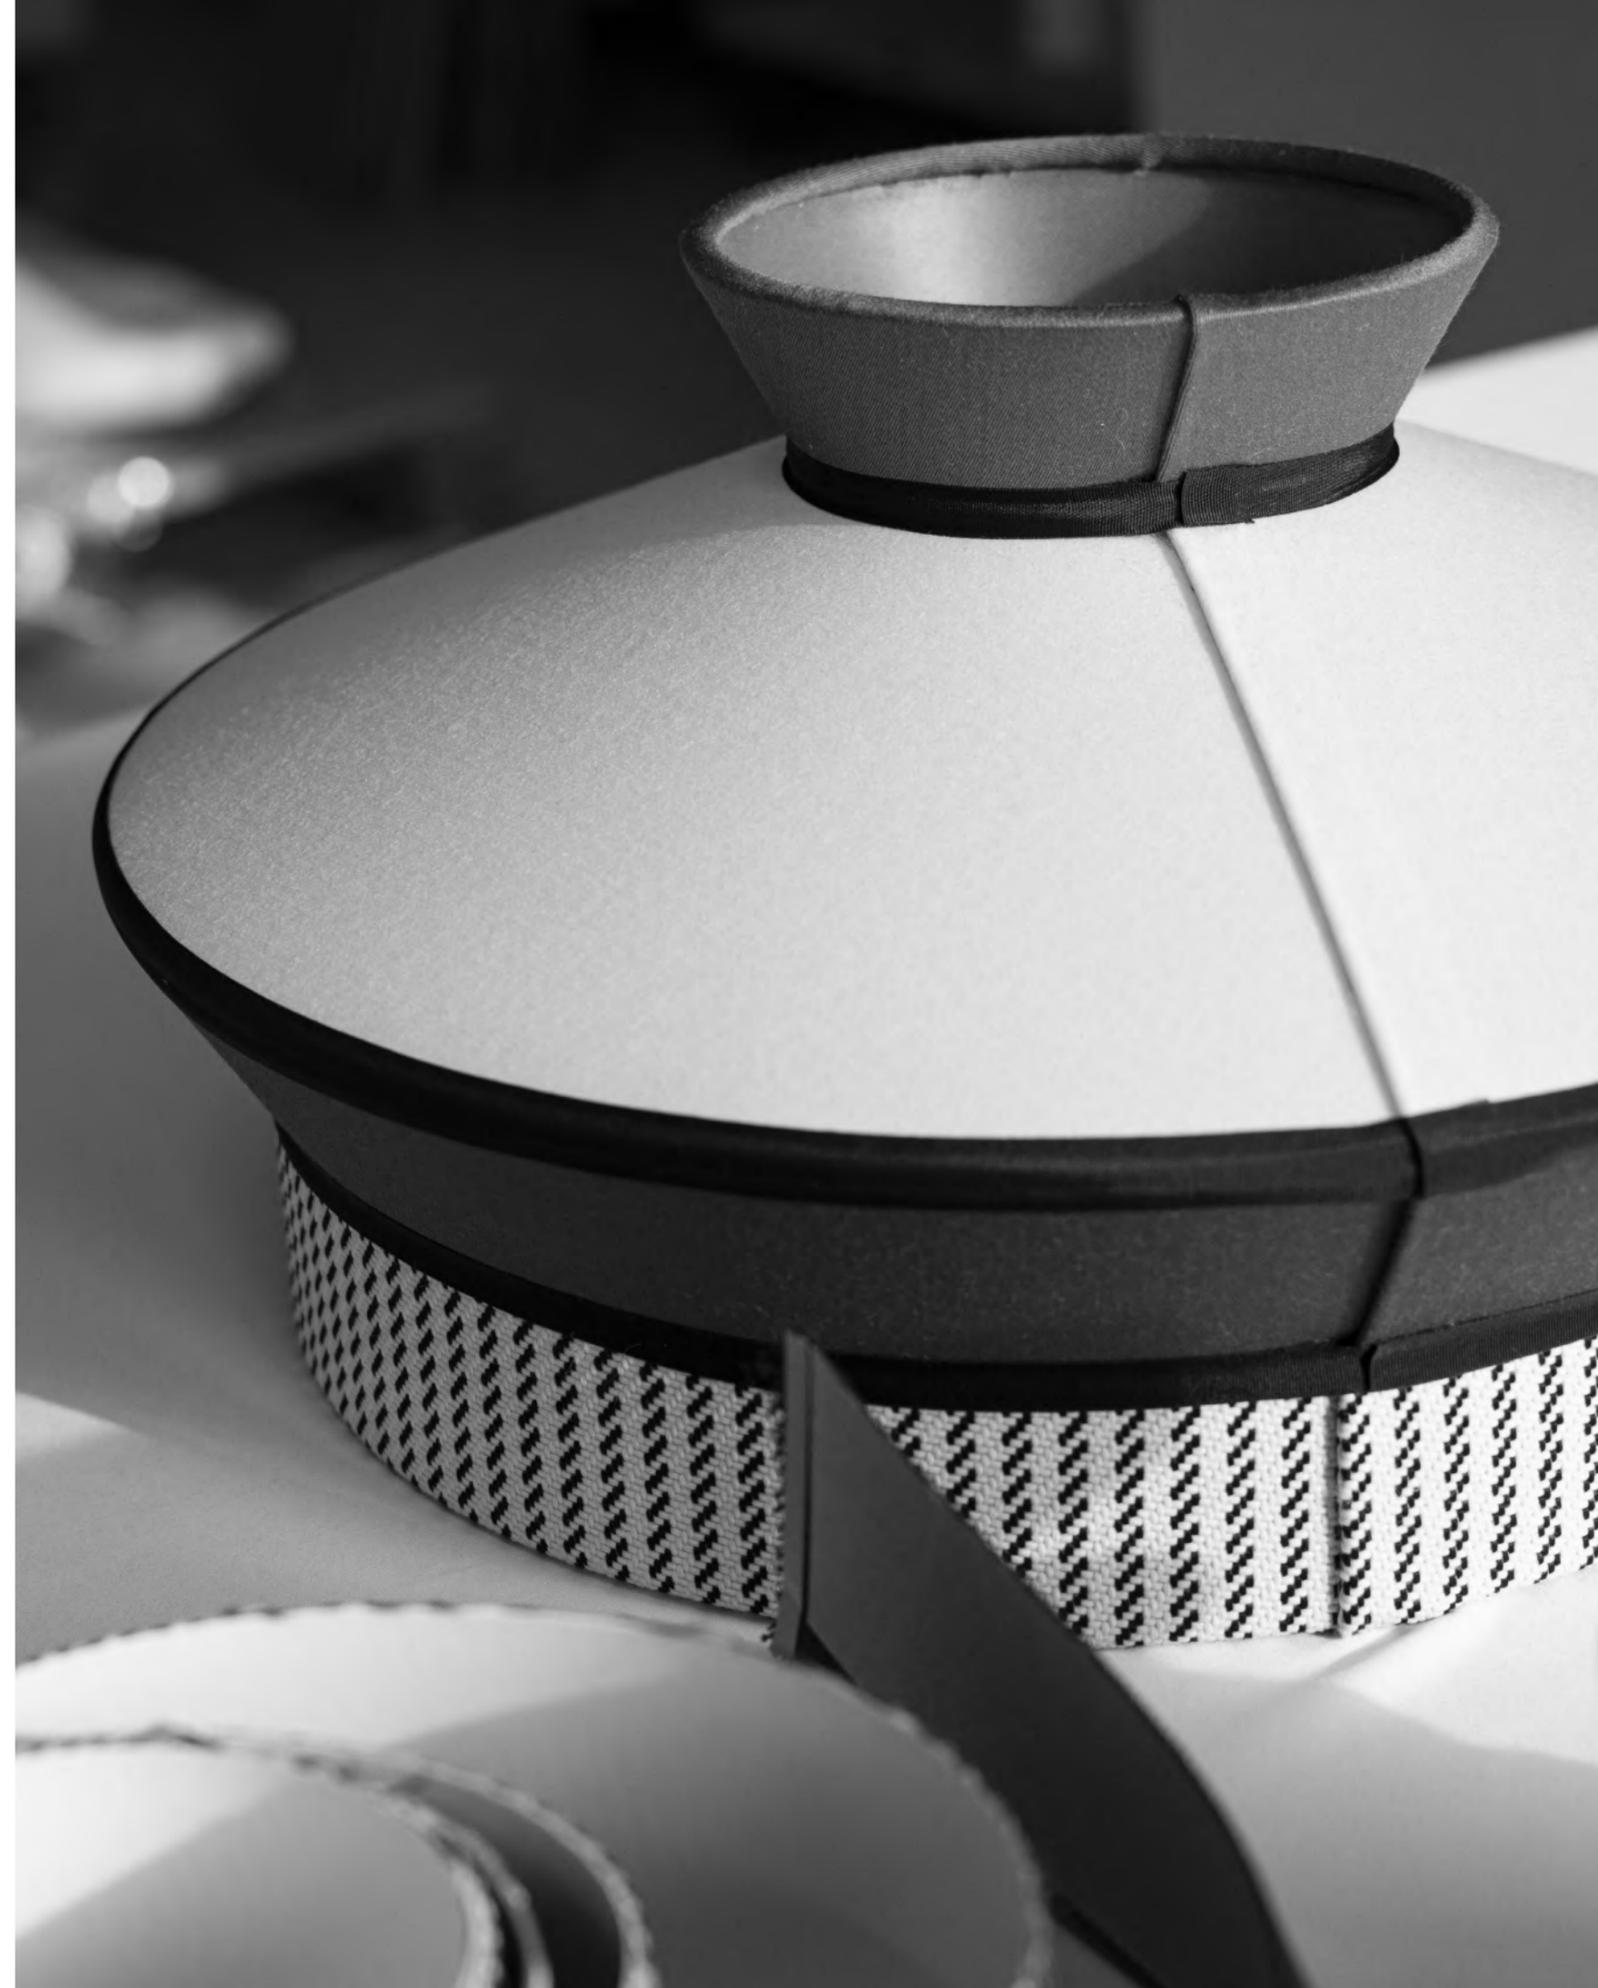

## Our story

Contardi Lighting is based in Brianza, a region internationally recognized as the ultimate furniture district and the cradle of Italian design.

This is where Contardi products come to life, sometimes conceived and developed in-house, and sometimes the result of coordination with the creative flair of international designers. These designers work closely with the company's technical office, which, thanks to its vast experience, creates products of extraordinary quality and attention to detail. Local, "zero-mile" production, entrusted to carefully selected suppliers within the Brianza district, ensures the renowned quality of "Made in Italy," appreciated and recognized worldwide through decades of industry experience.

## Manifesto

Contardi Lighting's style is defined as 'archi-decorative,' a style in which a harmonious balance between aesthetics and functionality is achieved through the convergence of several elements: the variety of materials used, the elegance of the finishes, and the bespoke approach, on one hand, which define the unmistakable character of each design, and on the other, technological innovation, adherence to the highest safety standards, and compliance with all the required certifications for various markets. For Contardi Lighting, a decorative lighting object is an ambitious and sophisticated product: it must be able to illuminate and do so masterfully.

**contardi**  
Made in Italy

## **Contardi USA**

Contardi Lighting's international growth was solidified in 2015 with the opening of its American subsidiary, Contardi USA, in New York.

This was a crucial step in a market that has always played a key role for the brand and has seen the completion of important projects in the hospitality sector over the years, thanks to Contardi Lighting's ability to develop cutting-edge lighting solutions that fully comply with the highest standards and specific required certifications.

With the opening and presence of the American subsidiary, Contardi ensures a direct presence in one of the world's key locations, responding in real-time to the needs arising from this market.

# Designers

**TRISTAN AUER**

An interior designer and "architect of emotions," Tristan Auer creates projects with an original and captivating style that combines avant-garde vision, decorative arts, and craftsmanship. His highly attentive approach to aesthetic value finds its fullest expression in the use of light and color and the juxtaposition of styles from different eras.

**CHIARA CABERLON**

Chiara Caberlon is an architect and interior designer who has turned the art of creativity into a profession. For her, beauty is a way of life, reflected in attention to detail, harmony, and balance. Her studio, founded in 2004, stands out for its innovation in tailor-made hospitality concepts, combining flexibility and bespoke design.

**CONTROVENTO**

Controvento, led by creative director Gabriele Chiave and business director Verdiana Vannini, is a multidisciplinary creative studio based in Amsterdam and Milan, bringing together an international team working globally to deliver product and interior design, art direction, and creative strategy that unite innovation with craftsmanship.

**DAAA HAUS**

DAAA Haus is a multidisciplinary architecture and design studio that sees design as a language to improve the world. Inspired by creativity, fun, and a sense of responsibility, they create projects that anticipate change, meet needs, and leave a lasting mark on the contemporary landscape.

**DAINELLI STUDIO**

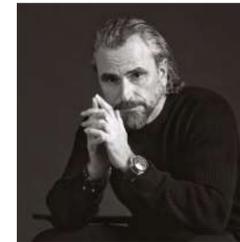

Founded in 2007 by Leonardo and Marzia Dainelli, Dainelli Studio stands out for its continuous aesthetic and formal research, which is embodied in a refined design that pays close attention to the harmony between shapes, colors, and materials. Each of their projects carries with it a deep design culture combined with knowledge of both industrial and artisanal production techniques and processes.

**MKV DESIGN**

Founded by Maria Vafiadis, MKV Design is synonymous with luxury and sophistication. Each project reflects an exclusive aesthetic, with meticulous attention to detail and the quality of materials. The studio's creations transform environments into refined and welcoming spaces where luxury meets the art of design.

**ALESSANDRO MUNGE**

Founder and creative director of Studio Munge, Alessandro Munge designs iconic projects worldwide, combining architecture, interior, and product design. With a narrative and visionary style, he creates engaging experiences and spaces that blend luxury, innovation, and timeless identity, connecting people and enhancing brands.

**PAOLA NAVONE | OTTO STUDIO**

Architect, interior designer, art director, Paola Navone is a designer with an eclectic, candid, and dreamlike soul. Her spirit blends the flavors and colors of the southern world with the tastes and forms of the tradition-rich West. From this stems her inexhaustible curiosity for exploring materials, forms, and structures, which today is a defining element of Otto Studio.

# Designers

FEDERICO PERI

Interior and product designer Federico Peri is recognized for his elegant touch and natural aesthetic sense, often expressed through subtly integrated historical references. His style emerges from a synergy between the historical and the contemporary. In 2011, he founded his design studio in Milan, which focuses primarily on interior and furniture design.

MASSIMILIANO RAGGI

Interior and product designer, Massimiliano Raggi creates refined and timeless projects through a creative process aimed at achieving a synergy between function, formal research, and stylistic harmony. The clean lines and delicate details of his products are enhanced by the use of high-quality materials, evoking a sense of sophisticated essentiality.

KING & ROSELLI

Founded by Jeremy King and Riccardo Roselli, King & Roselli innovates through the meticulous study of the relationship between materials and new technologies, as well as between craftsmanship and industrial production. Their designs emerge as statements of modernity, where contemporary aesthetics and technique converge in surprising forms.

SERVOMUTO

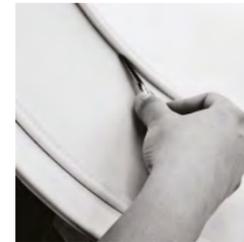

A Milanese studio established in 2010 pursues an ambitious goal: to reinterpret the lampshade in a contemporary and unexpectedly sophisticated manner. Their creations blend classic forms with modern prints and refined fabrics, producing items that impart warmth, character, and Italian style.

FRÉDÉRIC SICARD

Frédéric Sicard stands out for his meticulous approach to design, where every detail is crafted with utmost precision. His creations are noted for their sophisticated versatility, with high-quality materials that convey a sense of harmony and beauty, seamlessly integrating into modern and refined environments.

CONTARDI STUDIO

Contardi Studio is Contardi's in-house Research & Development team, where engineers and designers work synergistically to create decorative and functional lighting solutions. Driven by a careful analysis of trends, materials, technologies, and project requirements, it develops innovative products ideal for both residential and commercial spaces.

STUDIOPEPE

Founded in 2006 in Milan by Arianna Lelli Mami and Chiara Di Pinto, Studiopepe adopts a multidisciplinary approach to design, blending architecture, interior design, product design, and creative direction. Their layered and eclectic style combines poetic vision with design rigor, featuring a strong iconographic identity rooted in experimentation and research.

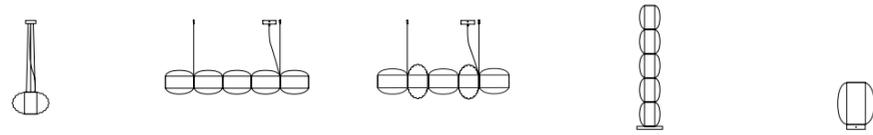

JAN VAN LIERDE

Jan Van Lierde is a Belgian designer, entrepreneur, and architect who, thanks to his artistic vision and meticulous attention to detail, has redefined the architectural concept of light. His works, which blend creativity and technique, have laid the groundwork for a humanistic understanding of lighting design for the 21st century.

# Arcipelago

DESIGN SERVOMUTO

Arcipelago expresses the refined aesthetic of Servomuto, featuring a bronze body and flame-retardant fringes. Thanks to its irregular shape, it can be combined in groups, creating an archipelago of warm light. Its curves allow for harmonious interlocking, perfectly matching enveloping color palettes and making any environment welcoming and sophisticated.

# Athena

MASSIMILIANO RAGGI

In Greek mythology, Athena is the Goddess of knowledge, military strategies, and weaving. It is this last skill that inspired the designer when shaping Athena: rectangles and ovals that merge together, textured fabrics for a couture touch, and a brushed bronze-nickel finish to affirm a sense of balance. Athena serves as a true “passepartout” lamp.

# Baggy

DESIGN PAOLA NAVONE - OTTO STUDIO

Baggy is the most experimental expression of Contardi's decorative style, inspired by the oversized trousers it is named after. With its irregular shape, Baggy challenges the typical precision of the brand, offering a bold design. Each lamp in the collection consists of modules of different sizes, allowing for great compositional freedom. The soft rope adds an unexpected detail, and the 360° light sources make it a functional lighting object.

# Calypso

DESIGN SERVOMUTO

Calypso, inspired by art deco, represents the pinnacle of Contardi's textile expression. Available as a suspension, floor or wall lamp, it combines a waltz of colours and materials: precious fabrics, braided silk rope, metal and glass. The black-and-white geometric patterns blend with bright colours inspired by South American and tropical cultures, creating a surprising and original visual impact.

# G+T

DESIGN JAN VAN LIERDE

G+T represents the pinnacle of innovation and quality in Contardi's reading lamps, designed for exclusive spaces such as yachts, hotels, and prestigious boutiques. The head, inspired by cocktail dispenser design, rests on a flexible arm covered in braided leather. Ideal for accompanying reading moments in any context, G+T is available in wall, suspension and battery versions with a magnetic attachment for great versatility.

# Kiki

DESIGN CONTARDI STUDIO

Kiki is a light with a pop and contemporary design, available in suspension, ceiling wall and table versions. Made of metal with elegant finishes, it offers a white opal glass diffuser for soft and even light. In its modular use, both in suspension and wall versions, it allows for great decorative opportunities, thanks to the different accessory and inputs that allow multiple configurations. Perfect for projects requiring creative and unexpected lighting solutions.
